PROFESSIONAL PROFILE

Highly self-motivated, computer savvy and result-oriented professional with experience and academic training in structuring, developing and implementing interactive websites to meet evolving business needs. Eager for new professional challenges and contributions towards organizational growth.

HIGHLIGHTS

- Fluent in English and Spanish.
- Enthusiastic professional with the ability to conceptualize and bring projects to full fruition.
- Quick learner of new technologies and skilled analytical problem-solver.
- Strong leadership and managerial skills.
- Proven ability to perform tasks independently with a high degree of accuracy and attention to detail.
- Hardworking, full of energy, skilled in prioritizing and managing multiple tasks simultaneously while mastering innovative software and tools.

EDUCATION

Full Stack Developer Certificate, Full Stack Development *CareerFoundry*

2016

- A 6 month intensive training program for web developers.
- Over 400 hours of coding, built multiple projects from scratch, using MVC, RESTful, and object-oriented design patterns.
- Implemented unit and functional tests using RSpec and FactoryGirl.
- Experience with Git version control and GitHub.

Bachelor of Science, Biology *Texas State University, San Marcos, Texas*

2009 - 2014

- Course work includes biology, chemistry and mathematics focusing on research and presentation.

PROFESSIONAL EXPERIENCE

Front End Developer *Erin Condren Design*

2016 - 2017

- Wrote code and implemented new responsive design for multiple pages across the site.
- Maintained and updated site promotional pages which increased user traffic and revenue.
- Refactored and reduced code by 20%, which decreases load times.
- Implemented a better cohesive design for a greater user experience.

Freelance Web Developer *luismeza.io*

2016 - Present

- Utilizes HTML5, CSS3, JavaScript, JQuery, SASS/SCSS, Bootstrap and Ruby on Rails to create web applications.
- Develops project scope and creates new concepts.
- Develops clean and quality code by using D.R.Y. and semantic principles.

PROJECTS

texastailsatx.com

Feb, 2017

Freelance site for an Austin dog walker. Using wireframing, HTML5, CSS3, JQuery, Git and SCSS I was able to fulfill the clients' requirements and help drive more business.

Sweetbakery.bitballoon.com

Oct, 2016

Hired to develop website for a local bakery in Austin, Texas. Developed new concept and used various technologies such as wireframing, HTML5, CSS3, JQuery and Git.

VOLUNTEER EXPERIENCE

Women Who Code, Austin, TX

Oct, 2016

Women Who Code is a global nonprofit organization dedicated to inspiring women to excel in technology careers by creating a global, connected community of women in technology. Volunteered at the 2nd annual diversity hack-a-thon in downtown Austin. Helped with arrangement and refreshment set ups.
